2) Objective: To identify the requirements of the ARMS portal and prepare Positive test scenarios and test cases.

Requirements:-

1. User login
2. View Student details
3. View attendance
4. View marks and results
5. Search Student records
6. Logout from the portal

Positive test scenarios

1. Login with a valid username and password.
2. View students details
3. Check attendance details
4. View examination results
5. Search using a valid Student ID
6. Logout successfully.

Test cases

Test case 1

Test case ID: ARMS 001

Test Scenario: valid login

Steps to Execute: Enter a valid username and password

Expected Result: Login successful and home page displayed

Actual Result: Home page displayed

Status: Pass/Fail

Test Case -2

Test case ID: ARMS 002

Test scenario: View Student Details

Steps to Execute: Login and click on Student Details

Expected Result: Student Details displayed

Actual Result: Student details displayed

Status: Pass/Fail

Test Case 3:

Test Case ID: ARMS 003

Test Scenario: View Attendance

Steps to Execute: Login and click on Attendance

Expected Result: Attendance details displayed

Actual Result: Attendance details displayed

Test Case 4:

Test Case ID: ARMS 004

Test scenario: View Results

Steps to Execute: Login & click on Results

Expected Result: Examination results displayed

Actual Result: Examination results displayed

Status: Pass/Fail

Test case 5

Test case ID: ARMS 005
Test scenario: search student record
Steps to Execute: Enter a valid student ID in the search box
Expected Result: correct student record displayed
Actual Result: Correct student record displayed
Status: pass / Fail

Test scenario: Logout
Steps to Execute: Click the Logout button
Expected Result: user logged out successfully
Actual Result: User logged out successfully
Status: Pass / Fail

Result:- The requirements of the ARMS portal were stud... and positive test scenarios and test cases were prepar... to check its basic functions.

Exp No: 3

3) objective: TO identify the requirements of the ARMS portal and prepare negative test scenarios and test cases.

Requirements:-
1. user login
2. view student details
3. view attendance
4. view marks and results
5. Search student records
6. Logout from the portal

Negative test scenarios:-
1. Login with an invalid username and password
2. Login with empty fields
3. Search using an invalid student ID
4. Enter an invalid email addr...
5. Access student details with... login
6. View results before publicatio...

Test cases 1
Test Case ID: ARMS 001
Test scenario: Invalid Login
Steps to execute: Enter an incorrect username & password
Expected Result: Invalid login message displayed
Actual Result: Invalid login message displayed
Status: Pass / Fail

Test case 2
Test case ID: ARMS 002
Test scenario: Empty login fields
Steps to Execute: Leave the username and password fields empty and click Login
Expected Res: Error message displayed
Actual Res: Error message displayed

Test case 3

Test case ID: ARMS-003
Test Scenario: Invalid StudentID
Steps to Execute: Enter an invalid Student ID in the search box
Expected Res: Student record not found message displayed
Actual Res: Student record not found message displayed
Status: Pass / Fail

Test case 4

Test case ID: ARMS 004
Test Scenario: Invalid Email
Steps to Execute: Enter an invalid email address in the profile form
Expected Res: Invalid email message displayed
Actual Res: Invalid email message displayed
Status: Pass / Fail

Test case 5

Test case ID: ARMS 005
Test scenario: Access without Login
Steps to Execute: Open the student details page without logging in
Expected Result: User redirected to the Login Page
Actual Result: User redirected to the login page.
Status: pass / Fail

Test Case 6:

Test Case ID: ARMS 006
Test Scenario: unpublished Res
Steps to Execute: try to view results before they are published
Expected Res: Results are not displayed
Actual Res: Results are not
Status: Pass / Fail

Result: The requirement of the ARMS portal were studied, and negative test scenario and test cases were prepared to check how the application handles invalid inputs and unauthorized access.

Exp No: 4

4) objective: To prepare positive test scenarios and test cases for an E-commerce application.

Requirements:
1. User login
2. search products
3. Add products to cart

Postive Test Scenarios.
1. Login with valid details
2. search for a product
3. Add a product to cart
4. Place an order

Test cases:

Test case 1.
Test Case ID: Fc 001
Test scenario: valid login
steps to execute: Enter a valid Username and Password
Expected Result:- Login Successful
Actual Result:- Login Successful
Status: Pass / Fail

Test Case 2:-
Test Case ID: fc 002
Test scenario: Search product
Steps to Execute: Enter a product name in the search box
Expected Result: Product displayed
Actual Result: Product displayed
Status: Pass / Fail.

Test Case 3:-
Test Case ID: Fc 003
Test scenario: Add to cart
Steps to Exe: select a product and click Add to cart
Exp Res: product added to cart
Actual Res: product added to Cart
Status: Pass/Fail

Test Case 4:-
Test Case ID: Fc 004
Test scenario: ~~Add to Cart~~ Place order
Steps to Exe: Enter the delivery address and click place order
Expect Res: Order placed Successfully
Actual Res: Order placed Successfully
status: pass / Fail

Test Case 5:-
Test Case ID: fc 005
Test Scenario: payment
Steps to Exec: select a payment method and complete payment
Exp Res: Payment successful
Actual Res: Payment successfull
Status: pass / Fail

Result:- positive test cases were prepared to check the basic function of the E-commerce application.

Exp no: 5

5) objective: To prepare negative test scenarios and test cases for an E-commerce application.

Requirements.
1. User login
2. search products
3. Add products to cart
4. place an order
5. Make payment

Negative test Scenarios
1. Login with invalid details
2. Search for a product that does not exist
3. Add an unavailable product to cart
4. place an order without an address
5. Make payment with invalid details

Test cases

Test case 1
Test Case ID: EC 001
Test Scenario: Invalid Login
Steps to Execute: Enter an incorrect username and password
Expected Result: Error message displayed
Actual Result: Error message displayed
Status: Pass/Fail

Test case 2.
Test Case ID: EC 002
Test scenario: Invalid product search
Steps to Exe: Search for a product that does not exist
Expe Res: Product not found
Actu Res: Product not found
Status: Pass/Fail

Test Case 3
Test Case ID: EC 003
Test scenario: Unavailable product
Steps to Exe: Try to add an out of stock product to the cart
Exp Res: Product cannot be added to the cart
Act Res: Product Cannot be added to the cart
Status: pass/Fail

Test Case 4:
Test Case ID: EC 004
Test scenario: Missing Address
Steps to Exe: Try to place an order without entering an address
Exp res: Error message displayed
Actual res: Error message displayed
Status: pass/Fail

Test Case 5:
Test Cas ID: EC 005
Test Scenario: Invalid payment

Steps to execute: Try to [illegible]

Payment details

Exe Res :- payment failed message displayed

Act Res :- Payment failed message displayed

Status: Pass / Fail

Result: Negative ~~Result~~ test cases were prepared to check how the ecommerce application handles invalid inputs and errors
